

RAUL CALVIÑO SOBRIDO

EDUCATION

M.Sc. Transp. Economics & Data Analysis | Technische Universität Dresden – Dresden (DE) | Average grade (german-scale): **1,4**

Oct. 2025 – Act.

- Specialization in computational logistics and machine learning in transportation

B.Sc. Industrial engineering | University of Twente – Enschede (NL) | Average grade: **1,7** – Graduated Cum-Laude

Sept. 2021 – Aug. 2024

- Bachelor Thesis: "Solving a sequential decision-making problem with Q-Learning".

Exchange semester | Hong Kong Polytechnic University – Hong Kong

Sept. 2023 – Dec. 2023

- Specialization in Warehousing and packaging design.

PROFESSIONAL EXPERIENCE

LOGISTIC AND SUPPLY CHAIN CONSULTANT | IDOM, Bilbao (ES)

Sept. 2024 – Sept. 2025

LLogistics engineer in a multinational Spanish engineering firm.

- Logistics coordinator for a decarbonization project in an industrial plant in Germany.
- FEED logistics engineer for optimization of storage areas in a galvanizing plant greenfield project through dynamic simulation.
- Participated in offer development and customer acquisition.

ROUTING OPERATIONS INTERN | Flaschenpost.de, Münster (DE)

Feb. 2024 – Aug. 2024

Graduation project in operations research.

- Project in improving the connection between ordering system and routing through Python and Reinforcement Learning.

TEACHER ASISTANT | University of Twente, Enschede (NL)

Sept. 2022 – Aug. 2024

- Assistance in operations research, supply chain, and industrial engineering programming courses.
- Leading tutorials, preparing simple engineering projects for students and assisting the professor with grading.

EXTRACURRICULAR WORK

Supply Chain volunteering consultant | Marz. 2026 – Apr. 2026

Wert!Stätte (2026), Basel (CH)

Offered support, developing a sustainable supply chain for a local cherry farmer.

Spanish teacher (A1-A2) | Sept. 2023 - Dec. 2023

PolyU Language Exchange Center (2023)

Treasurer | Oct. 2022-Nov. 2023

D.B.V. DIOK.

Responsible for budget planning and balance sheet (aprox. turnover 50.000 €)

PROFILE

Master's student in Transportation Economics and Data Analysis at TU Dresden (specializing in Computational Logistics and ML, GPA 1.4). I combine a foundation in mathematics and engineering in operations research and optimization with practical experience from logistics projects in five countries. I am looking for a working student position or internship to develop data-driven solutions for real-world logistics problems.
